Dhaka

EDUCATION

BSC in Computer Science & Engineering
Green University Of Bangladesh

January 2022 -Ongoing

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, C, C++,Java, HTML, CSS.
- **Web Development :**
 1. **Frontend:** HTML, CSS, JavaScript, React (Learning).
 2. **Backend:** Node.js (Learning), Express.js (Learning), Django.
 3. **Database:** MongoDB (Learning), MySQL.
- **Tools & Technologies:** Git, GitHub, VS Code, Django Framework.
- **Currently Learning:** MERN Stack (MongoDB, Express.js, React, Node.js).

PERSONAL PROJECTS

Major Projects

SmartStress Detection

Machine Learning-Powered Stress Analysis

- Built a web-based system to detect stress level classification, mood tagging, facial heatmap visualization, weekly stress graphs, mood journal, stress avatar, before/after comparison and stress-relief tips.
- **Tools & Technologies:** Python, Django, HTML, CSS, JavaScript, SQLite.

Trash-To-Treasure

E-commerce Platform

- Developed an online platform for upcycling and reselling used goods.
- Implemented category-based listings, secure checkout and payment integration.
- **Tools & Technologies:** Python , Django, HTML, CSS, SQLite.

Popcorn-Review

Django Web Application

- Built a movie review site with user authentication, ratings, search and filtering.
- Designed for a clean UI and better user experience.
- **Tools & Technologies:** Python , Django, SQLite , HTML, CSS .

GreenGuardian: AI-Powered Waste Classifier

Machine Learning-Based Waste Classifier System

- Built a web-based AI system to classify waste images into categories.
- Implemented recyclability check and weekly category trends dashboard for awareness.
- **Tools & Technologies:** Python,Django , SQLite , HTML, CSS, JavaScript.

Mini Projects

Portfolio Website

Personal Project

- Designed and deployed a personal portfolio using HTML, CSS, JavaScript.

Cipher Application

Encryption & Decryption Tool

- Web-based encryption & decryption tool with interactive UI, supporting Caesar, Vigenère, ROT13 and Bacon Cipher (HTML, CSS, JavaScript).

ChhayaShilpo

Web Platform for Traditional Event Decoration Business

- A web platform built with Python, Django, HTML, CSS , JavaScript and SQLite for managing product catalog, event bookings and deliveries for a Bangladeshi traditional decoration business.

Assembly-Based Text Editor

EMU8086 Assembly Language Project

- Developed a Notepad using EMU8086 Assembly Language focusing on low-level programming and hardware control.

Tic Tac Toe & Rock-Paper-Scissors

JavaScript Games

- Developed browser-based games with responsive UI using HTML, CSS, JavaScript.

COURSES & CERTIFICATES

- Python (Django) Training – EDGE Project, Bangladesh Computer Council, ICT Division.

ACTIVITIES

- Participated in Scout Camping developing leadership, teamwork and organizational skills.
- Participated in debate competitions to improve public communication skills and confidence.
