Md. Kaised Mollick

Python & Django | Machine Learning | Web Development

Abhaynagar, Jashore kaised.bd@gmail.com 01794-368824 LinkedIn

GitHub Portfolio

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate from Green University of Bangladesh with a strong foundation in technology, problem-solving, research, and analytical skills. Experienced in academic and personal projects involving web development, machine learning, data analysis, and AI-based applications, along with practical training in AR/VR/XR development. Strong ability to learn new technologies, communicate effectively, work collaboratively, and adapt to new environments. A quick learner with good teamwork, analytical, and problem-solving skills. Seeking an entry-level opportunity to apply my knowledge, contribute effectively to the organization, and grow professionally in a dynamic work environment.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science & Engineering February 2022 - April 2026

Green University of Bangladesh

- CGPA: **3.41** / **4.00**

TECHNICAL SKILLS

Programming Languages
Python, Java, C, C++

Frontend Development
HTML5, CSS3, Bootstrap, JavaScript, React.js

Backend & Frameworks
Django, Node.js, Express.js

Databases
MongoDB, MySQL, SQLite

Machine Learning & AI
Machine Learning, Deep Learning, Data Analysis, Multi-Modal Data Processing

AR/VR/XR
Unity, C#, Vuforia, AR Foundation, XR Interaction Toolkit

Tools & DevOps
Git, GitHub, VS Code, LaTeX, MATLAB

Other Tools
AutoCAD, IoT, Microsoft Office, Microsoft Excel

PROJECTS

KaiSed Portfolio

Personal Portfolio Website

- Developed and deployed a responsive personal portfolio website using React, Node.js, Express.js, and MongoDB.
- Implemented interactive UI, smooth animations, project showcases, resume section, and a responsive contact form.
- Built a backend API with MongoDB integration to securely store and manage messages submitted through the portfolio.

TrashToTreasure

E-Commerce Platform

- Developed an e-commerce platform for upcycling and reselling used products through category-based listings.
- Implemented product browsing, user interaction, checkout, and payment-related functionality.

Popcorn-Review

Django Web Application

- Developed a movie review web application using Django.
- Implemented user authentication, movie ratings, search, and filtering functionality.

SmartStress Detection

Machine Learning-Based Stress Analysis

- Developed a web-based system for detecting human stress using facial expressions and textual data.
- Applied machine learning techniques to analyze and classify stress-related patterns.

GreenGuardian

AI-Powered Waste Classification System

- Developed a web-based AI system for classifying waste images into different categories.
- Designed the system to support waste identification and recyclability analysis.

RESEARCH EXPERIENCE

Undergraduate Research Thesis

Feb 2025 - Dec 2025

Green University of Bangladesh

Title: *Spatial Deep Learning Model for Multi-Modal Stress Recognition*

- Developed an AI-based approach for human stress recognition using psychological data, facial images, and voice signals.
- Worked with the **WorkStress3D** dataset for multi-modal stress analysis.
- Applied spatial deep learning techniques to combine multiple data modalities for stress recognition.
- Gained practical experience in machine learning, deep learning, data preprocessing, and data analysis.

WORKING EXPERIENCE

Industrial Training on AR/VR/XR Development

Battery Low Interactive Ltd.

- Gained hands-on experience in Augmented Reality (AR), Virtual Reality (VR), and Extended Reality (XR) technologies.
- Worked on AR/VR projects using Unity and C#.
- Used Vuforia, AR Foundation, and XR Interaction Toolkit during practical training.
- Participated in sessions covering immersive technologies, XR trends, and basic AI concepts.
- Developed technical, problem-solving, collaboration, and teamwork skills through practical activities.

CERTIFICATIONS & TRAINING

Job Ready: Employability Skills – Basic Level

Wadhwani Foundation

- 79 hours of training; completed December 29, 2025.

Python (Django) Training

IIT, Jahangirnagar University — Under the EDGE Project, Bangladesh Computer Council (BCC), ICT Division

- 80-hour Python (Django) training, completed from Nov 2024 - Feb 2025.

EXTRA-CURRICULAR ACTIVITIES

- Participated in Scout Camping activities, developing leadership, teamwork, and organizational skills.
- Participated in school debate competitions, developing public speaking and communication skills.
